PRESS CLUB HEARS OF EXPERIENCES AT YPRES

Maj. Norman Thwaites, British Officer, Tells Scribes of Conditions on the Firing Line.

Maj. Norman Thwaites, a British army officer here on furlough, gave Washington one of its first real glimpses of the war last night, when he discussed his experiences at Ypres and elsewhere before the National Press Club. In a peculiarly expressive way, largely because of his extreme impersonality, he described the battle of Ypres. Only because of a mistake, he said, did the Germans fail to go through to Calais as they outnumbered the British forces ten to one. They failed to grasp the opportunity, however, and it was lost. Maj. Thwaites asserted that Great Britain is only the "junior partner," and just as all war movements are dominated by Joffre, so are all international policies moulded by the French. Mail seizures and the like, he declared, were ordered by the French. As to the idea of America in Europe, he remarked: "We all think you're doing your bit by supplying us with arms and ammunition."

FLEET ORDERED NORTH

Taken As Indication That Mexican Crisis Is Passed.

An indication that the Mexican crisis is believed to be safely passed is seen here in the arrangements which are being made to have the Atlantic battleship fleet come north from Guantanamo on April 15. The battleships will go to their respective home yards for overhauling and such minor repairs as may be needed. Capt. Bullard, of the navy service, said yesterday that the Navy Department has planned to equip several more vessels of the fleet with wireless telephony apparatus. This work will be undertaken when the vessels reach their home yards.

He was one of Clarendon's most prominent citizens and was well known in the District, where he formerly lived.

Mrs. Mary C. Rogers Dead

Mrs. Mary Church Rogers, widow of Wade H. Rogers, and a member of the pioneer Church family of this city, died at the family residence, 306 Eleventh street southwest, yesterday. Definite arrangements for the funeral will be announced today, but it is probable the services will be held tomorrow at the residence or Westminster Presbyterian Church, of which she had been a member since its establishment. Interment will be in Congressional Cemetery.

BRITISH SAY SEIZURE OF ENEMIES IS LEGAL

Note Reaching U. S. Said to Contend They Can Keep Men From Joining Hostile Forces.

Great Britain's explanation of her refusal to release the thirty-eight Germans, Austrians and Turks taken from the American steamer China, near Shanghai, on February 10, has been communicated to Secretary of State Lansing. It is understood to insist on the right of a belligerent to seize enemy subjects returning to take part in the war. It was intended to make the text of the British communication public last night, but after the cabinet meeting, publication was withheld until certain points are cleared up with Great Britain.

The British note recognizes that American ships are entitled to the protection of the flag. But Great Britain has always contended that this does not render a ship immune from visit and search under international law, nor does it mean that a belligerent has not the right to prevent enemy subjects from joining the armed forces of the enemy.

In the present case the chief point of consideration is whether or not the enemy subjects taken off American ships really intended to join the armed forces of the enemy. Several times in the course of the present war the United States has called both Great Britain and France to account for specific cases of taking passengers off American ships. A few months after the war, Arthur Piepenbrink, a steward on the American steamer Windber, was seized from the ship at the high seas by a French cruiser and imprisoned in one of the British West Indies. The United States requested and secured his release.

U-BOAT CONTROVERSY DECISION POSTPONED

President and Cabinet Still Undecided as to Steps to Be Taken. Difficulty Ahead.

President Wilson and the Cabinet again postponed decision on the course to be pursued by the United States in the submarine controversy with Germany. The Berlin foreign office still finds no objection to taking any official notice of the Channel liner Sussex, which is alleged to have been damaged by a German torpedo, thus endangering the lives of American citizens. Practically all the evidence that can be sent by cable has already reached here, and the President and Secretary Lansing are now waiting upon the more detailed mail reports, which should be on hand early next week.

The opinion is rapidly gaining ground in circles close to the administration that Germany's denial of responsibility will make it very difficult for the President to proceed with the case. Senator James Hamilton Lewis, when seen at the State Department yesterday, said: "As Germany denies all responsibility, it does not appear likely that anything can be done by the United States government. This, at least, is the opinion most freely expressed now."

Joseph H. Johnson Dead

Joseph H. Johnson, who served as doorkeeper of the United States Senate for many years, and as secretary to Representative William P. Sheffield, died suddenly at his home in Providence, R. I., according to word received here yesterday. During Gov. Beedman's campaign two years ago Mr. Johnson acted as campaign manager, and for the last few years he has been clerk of the Senate finance committee of the Rhode Island State legislature. From 1888 to 1893 he was a member of the Providence school committee. Mr. Johnson was born in Providence in 1852, and was graduated from Brown University in 1874.

TAKE CARE OF YOUR LIVER

And It Will Take Care of Your Constipation.

The liver is supposed to furnish the proper amount of bile for the intestines. This bile has two purposes—to help digest in the intestines that part of your food which the stomach is not meant to digest and to act as nature's laxative and prevent constipation.

It is plain to be seen then that oils and the ordinary laxatives which do not act on the liver give only temporary relief. If you want to get real and lasting results you've got to take the remedy that acts on the liver and causes it to furnish the bile which in turn acts on the bowels. The name of this simple but sure home treatment is Nature's Remedy—popularly known as NR Tablets.

An NR Tablet taken at night before retiring will tone up the stomach, put your liver to work and in the morning act thoroughly, but without griping, on the bowels. Nature's Remedy also relieves rheumatism, acts beneficially on the kidneys and purifies the blood.

No household should be without its box of NR Tablets—taken in time they will break up colds and prevent much sickness arising from disordered stomach and bowels.

Get a 25c box of NR Tablets and take one to-night—you'll feel better in the morning. People's Drug Stores, 7th and K, 7th and E, 7th and M, and 14th and U.

WINDOW CONTEST IS AGAIN POSTPONED

Display Men and Commerce Chamber Decide to Hold Competition Next Monday, Tuesday, and Wednesday.

A second postponement of the window dressing contest to be conducted by the Chamber of Commerce was agreed upon yesterday at a conference between members of the window dressers' section of the Retail Merchants' Association and Thomas Grant, secretary of the Chamber. The contest days were definitely fixed as Monday, Tuesday and Wednesday of next week.

The change was made to permit the Easter display of goods to be entered in the contest, as a further incentive would thus be given for the exertion of the talent of the window trimmers.

In the delegation representing the display men were N. Sondheimer, W. D. Osgood, H. Breslau, Ray Fleishman and Chairman Carroll, of the section. They were chosen at a meeting of the section on Monday night.

At the suggestion of the delegates the Chamber will appoint as judges in the contest a florist, a photographer and an interior decorator, these three to select a fourth judge, preferably a newspaper man.

The delegates also suggested to Secretary Grant that in addition to the prizes offered by the International Correspondence School, the Chamber should put up a medal. Secretary Grant will recommend to the directors of the Chamber at their meeting tonight the giving of the medal.
